Zones and Seasons

Protecting Park Resources

Wildlife

- Bald eagle nesting areas along the Snake River are signed and closed to riverbank use. Do not fish near any nest as birds are susceptible to disturbance while nesting.
- Aquatic nuisance species are an increasing concern in Grand Teton National. Protect park waterways and native fish by learning how you can prevent the spread of exotics. Refer to page 12 of the Wyoming State Fishing Regulations for specific practices.

Closed Areas
Areas closed to fishing: Snake River 150 feet below Jackson Lake Dam, Swan Lake, Sawmill Ponds, Moose Pond, Hedricks Pond, Christian Ponds, Cottonwood Creek from the outlet of Jenny Lake downstream to the second bridge (south of the Jenny Lake parking area).

Fish Cleaning and Disposal
To prevent whirling disease put fish parts in the garbage. Do not dispose of fish heads, skeletons, or entrails in any waters.
